

Michael Hummert

For United States Senate

REALIST LIBERAL DEMOCRAT

REALIST

Whether we are talking about international or national politics, Democrat or Republican parties or personal politics. The realist assumes nations, parties, and people will act in a manner that will promote their self-interest.

Why is this important to you? It explains why most of our politicians act in such unpredictable ways. Simply put, we don't know their true motivation since they are inherently dishonest.

Let me tell you where my self-interest lies. With the citizens of our country to provide a safe and predictable existence for our families. To create laws that will control our government and provide opportunity for our future generations.

Key issues: Balance Budget Amendment; Age Limit Amendment; Close our Southern Border; Stop Funding Wars in other Countries; pass a law to Protect our Police Officers; Reform our School System; Reform our Voting laws.

June 4, we hold our primary election to select who will represent the parties on November 5. We need everyone to pick up a Democrat ballot and vote Michael Hummert. We need to send Jon Tester back to his third-generation farm. If we do not defeat Jon Tester in the primary, he will probably get a fourth term in the United States Senate.
